PROJECTS

Disaster and Emergency Aid Management Application
C++
- Created a management system for supplies needed during an emergency or disaster as a final project for my Object-Oriented Programming class.
- Using C++, the application manages the list of items that need to be shipped to the emergency zones and keeps track of the movement of resources

Personal Website
JavaScript, HTML, CSS

- Built my personal portfolio website where users can browse through my basic information as part of my final project for my Web Programming Principles class.

Imaginary Online Store
JavaScript, HTML, CSS

- Created a management system for supplies needed during an emergency or disaster as a final project for my Object-Oriented Programming class.
- Using C++ the application manages the list of items that need to be shipped to the emergency zones and keeps track of the movement of resources

EXPERIENCE

LEX Associate   **May 2022- August 2022**
AnywhereWorks Toronto, Ontario

- Responsible for handling incoming calls, scheduling appointments, responding to chats, forwarding messages and transferring calls across multiple law firms and small businesses.
- Using multiple platforms and above-average computer skills to provide the best customer service in a fast-paced environment.

Telephone Fundraiser   **Sept 2021- Feb. 2022**
Fundraising Direct, Toronto, Ontario

- Accountable for contacting donors across Canada and contributing to fundraising goals for leading international non-profits including UNICEF Canada, the Canadian Red Cross, Médecins sans Frontières (Doctors without Borders), Greenpeace, and World Wildlife Fund
- Tasked with updating donor account information and converting agreements from yearly to monthly donations
- Fundraised over $10,000 dollars individually for various campaigns using good negotiation and communication skills

Brand Associate   **Aug 2019- Sept. 2020**
Old Navy, Edmonton, Alberta

- Interacted with over 200 customers a day; reacted swiftly requests, helped in item choice, settled complaints, and completed sales checkout
- Developed great customer service, communication, and promotion skills
- Assisted in the marketing and replenishment of goods while maintaining excellent store condition
- Experienced with cash register systems
